The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The vertical lines to the right of certain structural formulae must be removed. See p. 1 of claim 1 e.g..

Claims 1 and 2 should each begin with "A compound of the formula". "Ar is an aromatic compound" in the last line of said claims should be "Ar is an aromatic moiety".

In process claims 3 and 4 "characterized, as the most important synthetic transformations, by the following steps:" should be deleted. Then - -comprising- - should be inserted before "a)" in the line after the structural formula.

"Use of" claims 6-10 are non-statutory.
